

RECORDING PROGRAMS

If you have a Record button on your remote, by pressing the Record button, you can tape a satellite program you are watching.

- You cannot tape a satellite program different from the one you are watching.
- You cannot watch a video tape through the receiver.

Note: Many TV programs and films are copyrighted. In certain circumstances, copyright law may apply to private, in-home video-taping of copyrighted materials.

If the VCR is connected to the receiver correctly, you can record programs that you are watching. See *Wiring the System Together* in the Reference section of this manual or the *Installation Instructions* for more details.

ATTENTION!

If you open any menu (including the **Program Guide**) while recording a program, the menu will also be recorded. If you change the volume or activate the mute button, the volume change will be recorded.
