

USING CALLER ID

Caller ID displays on your TV the names of people as they call you *if you subscribe* to Caller ID from your local phone company. To use this feature, make sure you have a phone line connected to the receiver and that the **Caller ID** feature is enabled. After you turn on **Caller ID**, it stays on until you decide to turn it off.

Note: For best performance, make sure your system is properly grounded.

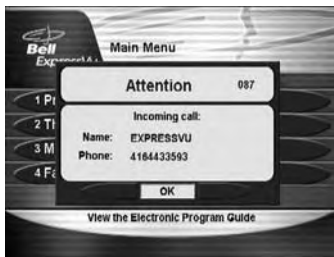

CALLER ID SCREENS

When you receive a call, you will see a **Caller ID** popup screen.

You can select **OK** to eliminate the message. If you do nothing, it will disappear after 20 seconds.

If you are in a menu when a call comes in, you will see a different **Caller ID** popup screen.

Using The System Advanced Features
